## REGISTERING YOUR SKYCADDIE

Your SkyCaddie SX500 comes pre-loaded with over 35,000 courses worldwide and includes a 30-day trial to play right out of the box. The complimentary 30-day trial period will begin after your first round of golf. Within the trial period simply complete the registration process and sign up for a nominally priced SkyGolf® subscription plans to continue access to the most-accurate, most-detailed and most up-to date course maps in golf. Unlike its competition, SkyGolf walks every course to make sure you can trust your distances to play your best golf.

For information on registering with the SkyGolf 360 mobile app or CaddieSync Desktop app, please visit [www.SkyGolf.com/MySX500](http://www.SkyGolf.com/MySX500)

## EXTENDED WARRANTY OPTIONS (USA AND CANADA)

When registering your SkyCaddie SX500, you will be given the option of purchasing an Extended Warranty (U.S. or Canada only). This will extend the standard 6-month manufacturer's limited warranty to a 12-month warranty against defects in materials and workmanship.

Terms and conditions are listed online at [www.SkyCaddie.com](http://www.SkyCaddie.com)

## CHARGING YOUR SKYCADDIE

Please use the enclosed SX500 micro USB cable to charge your SkyCaddie. Other micro USB cables may not work with your device. The USB cable provided is specific to your SX500 that requires a longer connector due to its water resistant design. USB cables must be rated at 2 Amps for the SX500. Use of other connectors may create longer charging times or a failure to complete a full charge.

It is recommended that you charge your SX500 after each round.

## HELPFUL TIPS

- Turn on your SkyCaddie SX500 outdoors, with a clear view of the sky, to receive satellite signals. Give it an initial five minutes before play to download the latest satellite data used to improve accuracy. The higher the strength on the GPS Signal Indicator, the higher the accuracy.
  - To maintain optimal accuracy during play, make sure your SkyCaddie SX500 is always on and has a clear view of the sky. Do not put the SkyCaddie SX500 in your pocket or turn it on and off during play.
  - While the SX500 is highly ruggedized, for best results treat it like your smartphone.
  - Don't expose the SkyCaddie SX500 to extreme temperatures or water. Storing your SkyCaddie in areas that may allow the battery to freeze may result in diminished run time or failure.
  - When cleaning and wiping the display use only a cloth intended for cleaning optics. Do not wipe with a towel or paper napkins. Use of the screen protector is highly recommended.
- Fully charge the battery before each round. The SX500 has the largest battery among rangefinders. So, in spite of its large and brilliant display and ultra-fast processor, you can expect 12-14 hours of play time by utilizing optional battery management features such as auto-dimming commonly used on smartphones.
  - Never disconnect or turn off your SkyCaddie SX500 while it is syncing. Wait until it is finished communicating before you disconnect it, power it off, or power off your computer.
